Prescription Drug Formulary

Effective August 1, 2010

2010 Prescription Drug Formulary

Effective August 1, 2010

Your physician is the person best suited to help you make decisions about prescription drugs, and the prescription drug information below is intended for consumer guidance only. This information relates to the Prescription Drug Formulary, generally, and may not describe your particular coverage. Your Certificate of Coverage or Summary Plan Description determines your benefits, limitations and exclusions.

Drug coverage and copayment/coinsurance for each tier is based upon the specific rider chosen by the employer group.

While every effort has been made to insure accuracy, some information may be out of date. The Formulary is subject to change based on decisions made by the Pharmacy & Therapeutics (P&T) committee. New drugs are not covered until reviewed by the P&T committee. Medications with an over-the-counter equivalent are not a covered benefit. Brand name drugs may be subject to additional member costs when a generic equivalent is available.

Your employer may have limited your coverage of certain prescription drugs. In the case of some drugs, the Plan limits coverage to a specific quantity or a specific course of treatment. The Plan may also require prior authorization on some covered drugs. If you need more information about policies regarding a specific drug, consult your physician or contact the Member Services Department. If the medication you take is not listed below, contact the Member Services Department at the phone number listed on your identification card. The Prescription Drug Formulary does not apply to members who receive coverage through an Indemnity plan. Some members have a three-tier prescription benefit for which copay levels are described below.

Drug Category	TIER 1 The lowest copay choice and usually includes generic drugs.	TIER 2 The mid-range copay choice and includes covered brand name drugs because of their overall value.	TIER 3 The highest copay choice and includes all other covered brand name drugs. Prior authorization is required for 2 tier riders.	MEDICAL (M)
ACE Inhibitors** (blood pressure lowering, includes HCTZ combination products)	benazepril captopril enalapril fosinopril lisinopril moexipril perindopril quinapril	ramipril trandolapril	None	Accupril Accuretic Aceon Altace Capoten Capozide Lotensin Mavik Monopril Prinivil Prinzide Uniretic Univasc Vasotec Zestril Zestoretic
Adrenal Hormones Oral**	cortisone dexamethasone fludrocortisone hydrocortisone methylprednisolone prednisolone prednisone	None	Aristocort Cortef Decadron Dexamethasone 1mg, 2mg Medrol Orapred/ODT Pediapred Prednisone Conc 5mg/ml	Prelone Sterapred Pkt
Adrenergic Antagonists**	clonidine clonidine patch doxazosin guanfacine	methyldopa prazosin terazosin caps	None	Cardura/XL Catapres/TTS Hytrin Minipress Tenex terazosin tabs Wytensin
Alzheimer's Agents**	galantamine rivastigmine	Aricept/ODT Exelon oral/patch Namenda	Cognex Razadyne/ER	
Androgens (male hormones)	Androxy danazol oxandrolone	Androgel* Testim*	Androderm* Android First-Testo Cr* Oxandrin	Striant* Testred Winstrol
